PUBLIC SPEAKING ZONE FINALS AT ARCHIE STOUTER PUBLIC SCHOOL

The final competition for Zone 3A in Public Speaking was held in the Archie Stoutter Public School, General Purpose room on Friday evening, March 10, 1967 in Minden. The winners of these contests — elementary school, secondary school (prepared), secondary school (impromptu) — are eligible to compete in the Provincial finals in Toronto at the King Edward-Sheraton Hotel, on Monday, March 27, 1967. All contestants gave an excellent performance and the quality of the speeches was quite high; the

audience of the evening was not only appreciative of the contest in progress, but also much attention was directed to each and every speaker.

The elementary contest was composed of 2 speakers — the Victoria County winner, Wendy Preston, Grade VIII of former S.S.A. Manvers and the Haliburton County winner Dale Holland Grade VII of Former Wilberforce Consolidated School. The winner of this contest was Wendy Preston.

There were 4 contestants in the prepared portion of the secondary school contest — Rosemary Elstone, Grade XI, of Haliburton Highlands Secondary School; George Coppins, Grade XII, of Fenelon Falls Secondary School; Carol Beatty, Grade XII of Brock High School and Robert Brown, Grade XIII of Lindsay Collegiate and Vocational Institute. The winner of this panel was Rosemary Elstone.

There were 2 contestants in the impromptu panel of the secondary school contest — Rodger Calverly, Lindsay Collegiate and Vocational Institute and Terry Malcolm of Brock Secondary School; the former contestant was the winner.

The judges — Rev. G. Locke, Mrs. E. Kennedy and Mrs. D. Stinson, deliberated cautiously on the selection of the winners; the announcement of the result was made by Rev. G. Locke. Prizes, as sponsored by the County of Victoria, were awarded at all levels; the elementary award, was presented by Mrs. E. Kennedy to Wendy Preston; Mr. F. Weldon, clerk of the County, of Victoria spoke briefly on the history of the contest prior to the presentation of a book "This Is Your Century" — to each Secondary School Contestant. The actual awards for winning the secondary contests were presented by Mr. R. O'Donnell, Public Relations Officer of the Georgian Bay Region of Ontario Hydro; Mr. O'Donnell also spoke on the current contests in his region. He had words of commendation for the contestants, this contest and this particular event. Mr. N. Gilmore, a member of the Minden Township School Area Board.

Refreshments were prepared and served to the assembly, following the speeches.

Rotarians Split On Arena Issue Here

Only seven days ago this paper carried the story, in which the Rotary Club of Minden was ready to finance a vote, in the very near future, for or against a new arena. This week, however it is quite a different story.

On Monday evening, March 20th, the Rotarians found themselves taking another vote, to see

if everyone was still in favour of the motion passed unanimously the week previous. It was quickly revealed that the majority of members had changed their minds.

Dr. Fred Griffiths, chairman of the Rotary Club Centennial Committee, has been the instrumental figure, in spearheading the arena

project, and until Monday night felt the entire club was behind him. The reason for the change in attitude on the part of many Rotarians were facts brought forward by some council members, who felt the tax increase this year was going to be substantial enough, without the extra increase of a new arena. After these facts were revealed, the majority felt it would be a poor time to hold such a vote.

Although the arena vote is completely a dead issue this year the club nominated three men to form a committee to start a fund raising campaign for a new arena, if a vote was passed by the people next year, or in the future.

THURSDAY SMILE

Everyone wants to go to Heaven, but no one wants to die!

KINSMEN MEETING MARCH 8TH

The Kinsmen Club of Minden held their regular meeting on March 8th, at the Wagon Wheel Motel, at 7:30 pm. Two guests were present, honorary member Kin Bill Locke and guest Mr. Bill Prentice. Two new members were welcomed to the club, Mr. Sidney Brown and Mr. Lesley Hogg.

Minden Club stands first on internal expansion for new members this year in division, one with nine new members as of February 1, 1967. In district 8, Timmins is in first place, Bracebridge second and Minden 3rd.

After a very good chicken dinner, reports on Anniversary Night were given and a report was presented by Kin Bob Austin regarding our participation in Cystic Fibrosis.

The Club decided to purchase a road sign to advertise our club and meeting place.

A member of our club Kin Glenn Keller travelled to Ajax as a club representative for the installation of a new Kinsmen Club, the Club of Bay Ridges, sponsored by the Kinsmen Club of Ajax.

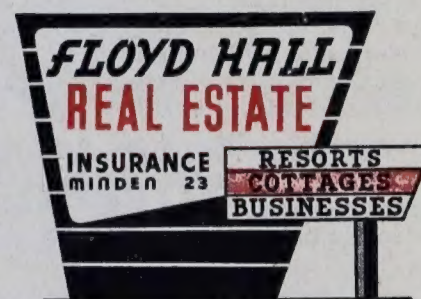

MINDEN TAKES CLEAN SWEEP IN BOWLING TOURNAMENT

On Sunday March 19th, the Minden bowlers, with three teams took on three teams from Fenelon Falls, and rolled to a clean sweep, by taking the top three positions.

Minden's number one team, led by captain Bill Walker, took top position with a total pin fall of 3717, Jean Nelson's team was in second place with 3648, while Joe Dollo's team captured third place with 3436. Fenelon Falls teams scored as follows: 3349, 3261 and 3074.

Ladies high triple for the tournament was won by Squibb Vanderyagt, of Fenelon Falls with a fine 642. Ladies high single was won by Joan Peters, with 242 also of Fenelon Falls.

In the men's division, Minden showed their skill by capturing both high triple and high single. Joe Dollo was the big gun for the locals scoring a 729, while Pat Clark turned in a fine single effort of 285.

Here and There

with
FENWICK FINCH

There are three things I don't believe in arguing about. Sex, Religion and politics — in that order. No matter what — you can't prove anything.

However, with this "free love" and the "new morality" that's floating around Minden it is almost impossible to keep out of the toils.

Saturday I was stopped — "What do you think of this free love and new morality?" this citizen asked me. "You know Fenwick," he continued, "I don't think anything has caused so much comment in Minden — what do you think?"

So, I told him — at my age that's about all I can do about it — and not much of that.

* * * *

He came up with a solution to his own question — and I quote him, verbatim.

"After watching Channel 3 Barrie the other evening, on the pros and cons of the fluoridation of water it finally dawned on me the nature of the cause of why some of Minden's townfolk are so geared to this "New Morality" — it is the excess of sulphur in the town's water system which is stimulating the sexual urge —

* * * *

Lawrence Pritchard's many friends will be pleased to hear that he is recovering from his recent operations — if you want to drop him a get well card he's at the Western Hospital, Bathurst St. Toronto.

* * * *

Just about the time the "Finch Coffee Club" was being dealt a low blow we find that we have a new lease on life.

The Oasis have had a change of heart and are back to 10c coffee. The Rockcliffe Hotel have given me a drubbing in the following letter. "Dear Fenwick:— We've heard your protestations for a long time regarding the 15c coffee, but now when you say there isn't a place on the main street that sells 10c coffee — you're WRONG. Our coffee, at all hours of the day or night is 10c — has always been 10c a cup since we bought the hotel over eight years ago.

You have four rooms to enjoy it in, and our dining room is now open under new L.C.B.O. rules till 1:30 a.m.

Our Highland Lounge is nice for afternoon (or any other time) coffee and one can enjoy T.V. or play a game of shuffle board at the same time. So — please don't throw in the towel just yet."

* * * *

Well, it only goes to show you — just when you think everything is dark — the clouds roll away and things look bright again.

* * * *

I see another article on "flying saucers" by Keith Newbatt — maybe we should get him down to Minden to see what he could make of the "mysterious marks" — I didn't have too much luck solving the mystery.

* * * *

Dr. Fred had a patient to whom he suggested that he 'drink hot water an hour before breakfast every day.'

He saw the man about a week later and the story was that he felt worse. "Did you not do as I told you" asked the Doctor. "Sure, I did the best I could but I couldn't keep it up for more than 15 minutes.

Fenwick

LETTERS TO THE EDITOR

Seattle, U.S.A.
March 12, 1967

Dear Sir:

Would you believe? a cup of coffee 15c.

I couldn't until recently I made a visit to Minden from the U.S.A. I visited one of the local restaurants for lunch and a coffee, when the waitress gave me the bill I couldn't believe my eyes, coffee 15c a cup.

Where I come from you get as many cups as you can drink for 10 cents. To me this is good hospitality and also good for business.

I feel that the businessman has to give a little to his customers in order to build up a profitable business, and what's cheaper than coffee.

By charging 15c for one cup of coffee, is just going a little too far and will turn the customers away.

Fran Kent

Dear Sir:

Thanks to the many public-spirited editors and publishers of the press of this country, growing numbers of the general public are now well enough informed about muscular dystrophy to confidently and hopefully take part in MDAC's program to exterminate this tragic disease.

The growth of our medical research program, and the success of our 1966 campaign to support that program, strikingly demonstrates the role of the press as the leading instrument of public education on the many complex social issues that face us today.

Thank you again for your outstanding cooperation in this public health endeavour.

J. J. C. Evans,
President

CARD OF THANKS

I would like to thank everyone who was so kind to me during my stay at the Minden Hospital. A special thanks to Mrs. McKay and her very fine staff of nurses; to Mrs. Snell Mrs. Bull, Mrs. Wright, and Mr. Lidster. A sincere thanks too, to Dr. Griffiths and Dr. Koval. Many thanks to all who sent cards, letters, flowers and books. I would like to make special mention of the boys and girls who took time to send such fine letters, drawings, and their own greeting cards. A thanks too, to the four boys who walked from town to the hospital on such a cold windy Saturday afternoon. I would be very remiss if I did not mention the wonderful neighbours who looked after my mother and sister so well, I realize more than ever how fortunate we are to have in our community, a hospital that is staffed by Doctors and Nurses that I would venture to say is second to none in Ontario. A most sincere and warm thanks to all.

Sincerely,
Ralph Hussey

PORTRAIT OF THE HON. LESLIE M. FROST

Glen Hodgson, MPP for Victoria-Haliburton indicates the portrait of the Hon. Leslie M. Frost in the framed collection of pictures of the 21st Parliament to Alan R. Capon, editor of the Lindsay Daily Post, during a recent tour of Queen's Park.

THIS DISTRICT TURNS OUT SOME FINE SPEAKERS

Lindsay, Haliburton and Bethany will be represented as the cream of the crop of Ontario's youthful public speakers vie for provincial honors in the Ontario public speaking contest in Toronto Easter Monday.

Rosemary Elstone, a 16 year old Grade 11 student at Haliburton Highlands Secondary School has won a chance to contest the secondary school prepared speech section class while Roger Calverly, a 16 year old in Grade 11 at Lindsay College Institute will challenge for top honors in the secondary school impromptu speech class.

From Bethany comes 12 year old Wendy Preston, a Grade 8 student, who will compete in the elementary school speech.

Forty-two finalists were selected from about 3000,000 contestants in elementary and secondary schools throughout the province. The finals are held during the Ontario Educational Association's annual convention and are sponsored jointly by the Ontario school trustees' and Municipal Councillors' Association and Ontario Hydro.

First prize winners will repeat their speeches at a banquet on March 28. All finalists are invited to spend a day at Niagara Falls as guests of Hydro.

ARENA ISSUE DEAD!

For a week Minden had a flicker of hope for the construction of a new community centre with artificial ice. This however, is once more a dead issue. The question is, what do we do now? The answer is obvious — we continue to cart the youngsters of Minden to Haliburton for ice time. The teen-agers continue to drive to Haliburton for their dances, etc. — the taxpayers of Minden continue to subsidize the Haliburton arena.

Is this what the people of Minden want? Well, we not likely will find out, for the people will not get the chance to voice their opinion on a ballot this year.

Council explained it this way — with the ever increasing cost of living, and a budget which is zooming to an almost impossible point, the tax payers could not burden the extra tax hike, an arena would be sure to create. This is one way of looking at it, and from the stand point of council, who we are trusting our money with, it might very well be the way to look at it, but than this is just a matter of opinion.

We look at it in another light. A community centre and artificial ice is a much needed instrument, in a community such as this, which has very little to offer the young people. Not only do the young people need the facilities of a community centre here, but the grown ups do as well — we would go as far to say, that if this town had decent facilities, in the form of a new community centre, activities would be continual every night of the week.

Now lets look at it financially — we think everyone will agree that a new Community Centre would be a good thing to have — we think everyone will agree, that eventually Minden will have a new Community Centre. Now the question is, do we pay in the neighbourhood of \$150,000 this year, or wait till 1970, when who knows what the price will be, maybe \$300,000 — or it could very well be more, at the present rise of the cost of living. If a community is faced with a need, which is creating a problem — putting it off, is not the answer. It is like throwing your outstanding bills in a drawer — they will not disappear, they still have to be paid, if they are not, many more bills join the file, and one has a problem. It is the same with municipal problems, they must be faced for discarding them only means an accumulation of problems later on.

We are living in a jet age — lets face it. If we don't move quickly, and stay abreast we are bound to find ourselves in deep trouble in the years ahead. This is not the age of idle thinking, cautious men, defeated attitudes — it is the age of fast calculated thinking, spirited progressive men, optimistic attitudes. What path will Minden take?

What's It All About?

by Rev. Jim

The following are questions received by the editor — All questions will be accepted without signature for this column, and answered each week.

1. (a) — "If a man was out of work and had a large family to support, do you think it is right for him to steal to get food for his family? (b) Would this be breaking the law?"

2. — Did Jesus break a commandment?

Anon.

Dear Anon:

1. (a) — St. Mathew 12: 1-4. Here Jesus is giving an answer to a similar question. He says David did an unlawful thing when he entered the House of God and ate the bread that really belonged to the temple. But David was justified in doing this because he and his men were hungry. In other words human need is our real concern and not the keeping of the law.

Now I will answer your question with a question because it is necessary to consider the full situation and act according to the law of love.

If the man in question could only feed his family by stealing, (perhaps from someone with plenty) and he refused to do so, because his main concern was that he be right according to the law, and thus his children died, would the Lord congratulate him because he considered his own soul first and foremost? And further would he be guilty of "Thou shalt not kill"?

(b) He would be breaking the law of the country and could be penalized but if he obeyed the law of love he need feel no guilt. He is not condemned of God.

Jesus died because he evidently broke the law of his country but God honoured his act of love and raised him from the dead.

2. — Jesus healed on the Sabbath and he could have healed the next day. He also permitted his disciples to pluck corn on the Sabbath and eat it, which was considered unlawful. He dishonoured his father and mother when he was twelve years old by staying behind in the temple in Jerusalem while they journeyed away thinking him to be in their company. When they returned and found him he never apologized for causing them concern but rather said, "did you not know that I must be about my Father's business."

May I add to this question by saying, we live in a day in which the spirit of love is more widespread than in the day of our

Lord. This is not to say that human nature has changed but rather to say that the spirit of Christ has more control today. We see His in our service clubs, our churches, and many other organizations. We see this love in most individuals, not perfect, but present. For this reason it is well to remember that we should read the Bible with the present day in mind, picking and choosing those items that are beneficial for our day.

We may even be surprised to realize that the kingdom of heaven is present in a greater way than we formerly realized.

MINDEN - ONTARIO

SPORTS

WITH BOB BEENEY

Dear Barbara Elder:

It is heartening to know about the keen interest that you take in your son's activities in minor hockey. If all parents of youngsters registered in the Minden Minor Hockey Association were as interested as your letter shows then the many difficulties and problems that faces the executive of the Association would be easily solved. However this interest must be shown in minor hockey activity for the Association as a whole and not for one individual.

I will try to answer your letter in a way that will clarify some of the problems that seem to face you and your son in minor hockey. I will do this as a person connected with minor hockey in Minden for the past four or five years and not as Secretary of the Minden Minor Hockey Association.

Firstly I must stress that anything that you would say or write would never place your son in jeopardy in regards to playing in minor hockey in Minden as you mentioned in your letter.

The aim of minor hockey has been to provide youngsters with hockey and to acquaint the players with sportsmanship and fellowship. Personalities do not enter into this youth activity perhaps as it does in other adult activities or business.

It is unfortunate that your son received his injury but in a contact sport it is unavoidable in many cases. I believe this year we have had more accidents than we did last year but this is due mainly to the competition that some of our teams have received in the OMHA.

At times when some coaches have business commitments and other responsibilities that take

them away from minor hockey the teams double up in practices. I have when the occasion occurs handled twenty or more boys on the ice with no trouble at all. Boys when they reach the squirt and pee wee ages are expected to be able to act and behave in a gentlemanly manner. This is one of the points that is drilled into the boys endlessly. Discipline is taught and without it a coach would never survive for more than a few practices.

A teacher at school can handle twenty boys with a minimum of problems and it is the same in minor hockey.

Throughout the fall and up to the latter part of December the Pee Wee Bee's practiced in Haliburton twice a week in hour long sessions. However when the teams started hockey in the Minden Arena the opportunity for ice time was increased.

The Pee Wee Bee's practiced on Wednesday evenings and on Saturday mornings for an hour at a time. This continued throughout most of the winter until the coach of this team was involved in business commitments that prevented him from holding practices at these specified times. Even if some parents of these boys had come forward to offer their services to relieve the coach of some of his responsibilities and to help the youngsters, a steady pattern of practices could have been maintained.

Power skating was made available for one hour a week, taught by Mrs. Pat Gilogoly. As far as I am concerned this is one of the best things that ever happened to minor hockey in Minden. This type of skating is taught to hockey players all over Ontario and has been proven a benefit to the players who have been taught it.

If power skating had been a part of minor hockey when your

son had started playing a few years ago his skating would be much more improved than it is now. I would think that if your son had attended power skating this year and learned more about the fundamentals of skating, two hours of practice, would not seem so strenuous for him. A child must skate before he can play hockey correctly and this is why it has been included in the minor hockey program.

Thanks to the courtesy of the Arena Board, Thursday was made available at no charge for skating. This was done when ice conditions permitted. If your son took advantage of all these hours then he would have had four hours of ice time for a good part of the winter. Due to the circumstances as I mentioned earlier the even balance of these practices could not be maintained.

However if a few parents had volunteered their time, to assist, the ice was readily available. It must also be noted that the coach of the Pee Wee Bee's lives out of town and doesn't even have a youngster on the team, yet he volunteered his time to help the kids.

There are many jobs in minor hockey that can be done by people that haven't had any hockey experience. In Minden we have a committee of twelve directors that have voting power. Out of these twelve an executive is formed. It isn't necessary for all these people to be versed in the game of hockey. Their job is the administration of the hockey league. However due to lack of support many of these men do many jobs in the Association. Such jobs as time keepers, and goal judges can be easily learned. The jobs of secretary and treasurer can be done by others, without hockey experience. This would leave the coaches more time for hockey if some of the administration was handled by others. A woman would be welcome as secretary of the Association immediately if one is available.

The reason why a coach advances in a league with the team from year to year is a simple one. I will give you an example.

I for instance, coach a squirt hockey team and my son is a member of that team. I spend two hours Wednesday evening with the team and one hour on Saturday afternoons. Some Saturdays I spend the whole day out of town at tournaments. In this way I can do two jobs at once, (a) do my part in minor hockey and (b) be with my son as he plays.

If my son played for a different team and I also coached, let us say a pee wee team then I could very likely be involved in hockey five or six days a week. Although there isn't anything I'd rather do then be in minor hockey it would be almost an impossibility and unfair to the other responsibilities

that I have. This is the case with nearly all of the coaches.

I think that perhaps I have clarified some of the points that you raised in your letter, but possibly you have a few questions that you would like explained. If I can do so I will try to answer them at any time. However I will again suggest if it is possible for you to become involved in minor hockey please do so when the Association holds its annual meeting later in the year.

I am certainly sure that the Minden Minor Hockey Association will welcome any additional help whether it be for instruction or administration duties within the association.

Yours truly,

Bob Beenev

THE NATIONS BUSINESS

by WM. C. SCOTT, M.P.

Four important pieces of financial legislation occupied the attention of the members of the House of Commons this week as the House resumed its work following a short recess occasioned by the untimely death of Canada's well loved and highly respected Governor General, the Right Honourable George P. Vanier. Since I have not had a chance to do so before now, I would like to pay a brief tribute to the late Governor General — Much has been said and written about General Vanier's outstanding contributions to Canada unity, of his love of people, particularly children, and his work in the preservation and strengthening of family life as part of the bedrock of our society. It is fair to say that it is difficult, indeed almost impossible, to overstate the value of his work and example in these areas. His life was one the worth of which will live for a long time to come.

After a three-day adjournment business was taken up again and the Bank of Canada Act, an income tax amending act, and an act to ratify the federal-provincial fiscal arrangements negotiated last fall, came before the House for consideration, and with the exception of the Bank Act, were given third reading and will now go to the Senate for debate there. The Bank Act is perhaps the most important of the legislative items which the House considered this week. Under Canadian law, there must be a revision of banking legislation once every ten years but because of several factors the present bill is several years overdue. In the meantime Parliament has had to extend the existing law while waiting for the Government to decide its policy in this area and for the Banking committee to complete its consideration of the bill. While the bill was before the committee some 79 meetings were held to consider its provisions. Twenty-seven briefs were presented and 57 representatives of approximately 30 organizations were heard.

Thus far there has been no indication that the bitter dispute between Finance Minister Sharp and former Finance Minister Gordon over the matter of foreign control of Canadian banks has been settled, and many observers expect it will flare up again when this stage of the bill is reached.

MINDEN OPP REPORT

QUIET PERIOD

Minden and Haliburton Detachments of the Ontario Provincial Police report a very quiet period for the week ending March 18th.

Minden Detachment reports one property damage accident in the amount of \$50.00 and Haliburton reports one property damage accident in the amount of \$20.00.

Minden officers spent 130 hours on patrol and patrolled approximately 5200 miles for the week of March 12 to March 18. Haliburton officers spent 30 hours on patrol and patrolled approximately 1200 miles during the same period.

WOMEN'S INSTITUTE HELD MEETING

The March meeting of the W.I. here in Minden, was at the home of Mrs. Wm. Locke with Mrs. P. Clarke presiding.

The ladies sang 'O Canada', the Ode, and repeated the Mary Steward Collect. The roll call of "How to get rid of a salesman" was replied to by 18 members and one guest.

The reports were given and letters read.

Mrs. A. Kernohan gave her talk on Stelco of Canada showing its importance for its own products as well as the bi-products from its processing.

The District Director Mrs. Harry Welch and Mrs. Sears plan to attend the District Executive meeting in Fenelon Falls, Thursday. The secretary read the list of school fair prizes with Centennial theme, this goes to all the public schools in the County, with exhibits to be shown at the Fall Fair.

Mrs. J. Fairfield read a note on the late Governor Vanier, showing our awareness of his fine life long service.

After some discussion it was decided to have a Centennial quilt, with committee of Mrs. Angus Coulter, Mrs. B. Walker and Mrs. L. Cox.

Visitors to the local hospital and Hyland Crest Home care, Mrs. P. Robinson, and Mrs. Rupp.

Mrs. H. Stevens gave a paper on Education showing the rising costs and some details of the Adult Training Plan.

The secretary announced that the Nominating Committee will have a slate of officers at the next meeting ready for the next year. This meeting in the evening at the home of Mrs. Wm. Moore.

The meeting closed with the National Anthem and W.I. grace, all enjoyed a social half hour, and lunch served by hostess and the committee.

ALL ARE WELCOME

Woods, Waters and Wildlife

by JAMES WOODFORD

One of the first signs of spring in Ontario is the arrival of large flocks of whistling swans at Long Point Bay, on the north shore of Lake Erie.

The swans stop to feed and rest during their annual spring flight from the Atlantic coast, where they spend the winter, to their breeding grounds in the arctic.

The Whistling swans migrate by day and by night, flying in long V's. Their pure white wings and bodies and long necks stretched out full length mark them as swans.

On April 1st and 2nd, the Federation of Ontario Naturalists is sponsoring a field gathering to see the swans and other waterfowl. The public is cordially invited to attend.

Expert leaders will be on hand both days to assist in locating and identifying the swans and other birds present.

Watch for specially marked FON Guide Cars when you arrive at Long Point.

Long Point is near Port Rowan. To reach Long Point go south on Highway 59 from Highway 3, near

Courtland. An alternate route is to go south on Highway 24 at Simcoe and then through Vittoria, St. Williams and Port Rowan.

Suggested observation points at the head of Long Point Bay are the high ground overlooking the bay near the water tower at Port Rowan; the causeway that runs out from the mainland just west of Port Rowan (Highway 59) the boat launching ramp in the provincial park; and the end of the road leading out to the Old Cut Inn.

The Whistling Swan is the common swan of North America. In size this magnificent snow-white bird ranks among our waterfowl as second only to the trumpeter swan. While its former vast number have been greatly reduced, they still exist in comparative abundance.

They breed in the low and middle arctic, north to Banks and Baffin Islands. The nest is a mound of moss or grass on the ground, frequently near water. The female lays from three to five creamy white eggs.

Whistling swans may be seen over much of Western and Southern Ontario — most commonly from about March 20 to April 10.

WANTED ACREAGES
